Pushbutton	✓	✓	✓	✓	✓	✓	✓	✓
APIs Toolkits support	✓	✓	✓	✓	✓	✓	✓	✓

✓=Supported ✗=NOT supported ☒=NOT supported by the operating system

**Notes:**

- The “Unlimited” term refers only to software capabilities. The hardware restrictions must be considered when implementing the project.
- The tag count covers ALL tags configured in the application, whether used for communication or not. Additionally, each position of array tags and each member of a class type tag is included in the tag limitation.
- The license installed in the Server can be upgraded to support one or more Web Thin Client(s) simultaneously connected to the Server at an additional cost per license. The options for Web Thin Clients simultaneously supported by the Server are:
  - **Server = STUDIO** (WinNT/2000/XP): 0 (no Web Thin Clients), 1, 2, 4, 8, 16, 32, 64, 128 or 256.
  - **Server = CEVIEW** (WinCE): 0 (No Web Thin Clients), 1, 2, 4 or 8.
