

# InduSoft Maintenance Agreement

Amplify your InduSoft experience with a maintenance agreement that guarantees free upgrades to new versions of InduSoft Web Studio for a full year and prioritized service from InduSoft technical support. With pricing scaled to your licensing costs, maintenance agreements are a cost-effective way to ensure you'll always get timely support for yourself or your customers and that you'll always be working with the best and most secure version of InduSoft Web Studio.

Maintenance agreements are priced at 20% of current license costs, are good for one year from purchase date, and offer the ability to jump into the express lane for technical support. Save money with free upgrades to new versions. Once you've upgraded all future service packs and patches for your current version are included free of charge!

With major upgrades to the software arriving every two years on average, maintenance agreements are an excellent way to ensure you never pay full price for new versions of your SCADA/HMI software. InduSoft Web Studio is always 100% backward compatible, so your investment in application development time is always protected, and the quick support included in the maintenance agreement means you or your customers can upgrade without worry and without missing a beat.

Take advantage of this deal now! Call or e-mail your InduSoft sales representative for a quote, and start taking advantage of the benefits of faster service and always up-to-date SCADA/HMI software.
