InduSoft Signs Two New Automation Distributors

Eagle Engineering in Maryland and MSI Tec in Colorado, both specialists in factory automation and motion control, join the worldwide list of InduSoft distributors

Austin, TX – November 6, 2006 — InduSoft announces the signing of two automation system integrators as distributors for WebStudio HMI/SCADA software and similar software products: Eagle Engineering Corporation headquartered in Baltimore, MD, and MSI Tec, Inc. headquartered in Centennial, CO.

Eagle Engineering (<http://www.eagleengcorp.com/>), in business since 1986, specializes in automation, motion control and machine control. Eagle supplies automation systems for end users, OEMs and machine builders, and is a Value Added distributor for power transmission, servos, adjustable frequency drives, and other motion control products.

MSI Tec (<http://www.msitec.com/>), established in 2000, also is an automation systems integrator, specializing in plant automation and developing controls for OEMs and machine builders. MSI is a distributor and value-added reseller of industrial computers, motors, drives and PLCs. MSI Tec will be covering a broad area of the U.S. in Colorado, Utah, Wyoming, New Mexico, and Arizona.

“We are excited to add these two systems integrators as distributors,” says Marci Roland Gadbois, vice president, Business Development at InduSoft. “Both companies are highly

experienced in automation, and have been relying on InduSoft products, such as InduSoft Web Studio, for some time. We already have a reputation as a leader in the arena of control and automation software. Signing these two respected companies as distributors demonstrates that our automation tools produce highly effective solutions for motion control and reporting requirements.”
