For Immediate Release

Single Interface Simplifies Development Of SCADA/HMI for CE, NT, 9x

PHILADELPHIA, PENNSYLVANIA – October 4, 1999 - The InduSoft Studio enables users to develop and project-manage applications for Windows CE, NT and 9x operating systems from a common interface. An Explorer-style tool enables the engineer to manage all project documentation and even different project databases from the same screen where graphics are created and tags defined. The InduSoft Studio is new with InduSoft Version 3.0 released today at ISA Tech Expo 99. Significant InduSoft Studio features include:

Explorer-style Project Browser that simplifies project management by allowing visual access to all elements of every application. Tab control keeps the application organized and easy-to-browse. Document and database management is as easy as clicking on the tree structure. The tag cross-reference feature simplifies configuration, reduces debugging time and prevents errors.

Graphics builder window provides workspace for development of the operator displays.

All toolbars and development tools are accessed from a single window.

Other development utilities include: the Database Spy to test the application by reading and writing database values; the LogWin utility to track events regarding communication, displays, readable and writable tags, security, math scripts and user trace messages.

InduSoft remains the premier ready-to-ship supervisory control, process monitoring and operator interface software for Microsoft's Windows CE operating system. Indusoft HMI's work in diskless

handhelds, palmtops, mobile and embedded PCs, making it ideal for OEM and end user applications.

About InduSoft

Founded in 1997 in the US, InduSoft develops and markets industrial software products for developing applications in process supervision, automation and control for Windows 95/98, Windows NT and Windows CE. For further information about InduSoft and its industrial automation solutions, contact us at 877-INDUSOF or visit the company's web site at www.indusoft.com.
